MIZUNO CREW 21

MIZUNO GLOBAL SUSTAINABILITY

MIZUNO CREW 21 was launched in September 1991 as our global sustainability commitment to protect the planet for future generations. As Mizuno recognized that all corporate business activities affect the environment, we focused on contributing to the preservation of the global environment with our company activities every day. Starting April 2021, we have been designating all the Mizuno Sustainability activities as “**MIZUNO CREW 21**”

We will contribute to social, economic, and environmental sustainability, as well as the fulfillment of our relevant activities by integrating innovations and constantly improving our products and services. We endeavor to ensure a future in which people cultivate a healthy mind and body through sport.

VISION

We believe in a sustainable future in which all people live equally on a safe and healthy planet. While respecting the dignity of all people, we will continue to nurture a beneficial future, where sports can be enjoyed anytime, anywhere and without reservation.

MISSION

To protect our planet earth, the stage on which we play sports. By integrating innovations in our products and services, based on science, for the benefit of society and inspired by nature, we endeavor to ensure a future in which people cultivate a healthy mind and body through sports.

PURPOSE

MIZUNO CREW 21 is our global sustainability commitment to protect our planet for future generations.

ENVIRONMENT

We are committed to achieving a sustainable society through actively contribute to the conservation of the global environment in all business activities and actions of all individuals.

As we provide products and services that embody the diverse value of

sports, protecting the global environment where people around the world can live with peace of mind and play lively sports is an important issue.

HEALTH

Believing in the collective power which sports can contribute to the mental and physical health of people.

Sports have the ability not only to maintain physical and mental health, but also to foster communication across countries and generations by contributing to bring out the potential of people and regions.

Mizuno supports more people to access sports and contributes to the realization of a richer and more sustainable society in which each person can shine.

HUMANITY

United in respecting diversity to contribute to the realization of a future in which all people respect, understand and accept each other.

We believe in a world in which all people can live in equally. To bring us closer to that – our company respects the diversity of all people and provides better sporting equipment, places and opportunities for playing sports to all, regardless of nationality, race, gender, age or physical ability, through our sincere business activities.

ROAD RUNNING

FOOTWEAR

WAVE NEO ULTRA

INSPIRED BY NATURE / DRIVEN BY PERFORMANCE.

This eco-conscious shoe offers unprecedented comfort that makes running a joy. It is loaded with Mizuno's signature cushioning and energy return features, including MIZUNO ENERGY CORE which boasts the highest functions of the MIZUNO ENERGY series. With this shoe, Mizuno strives to care for the environment through materials with low environmental impact, reduction in dyeing water and CO2 emissions.

BENEFITS

- Dope-dyed yarn, coloured pellets are added during the yarn making process, thus no water is needed to dye the yarn
- MIZUNO ENERGY LITE, uses plant-based materials and offers excellent cushioning, energy return and lightness, is inserted in the top midsole.
- MIZUNO WAVE, the midsole with its wavy structure is composed of two layers, which differ in hardness, boosts stability without sacrificing cushioning
- G3 Outsole provides strong grip at a light weight

SUSTAINABILITY

MATERIALS

More than 70% recycled content on upper body textile.
More than 90% recycled content on upper body lining textile.
More than 90% recycled content on sockliner lining.
Plant-based material (Pebax Rnew®) infused MIZUNO ENERGY LITE.
Part of the midsole made with algae from BLOOM™.
Part of the sockliner made with algae from BLOOM™.

PROCESS

Undyed upper body textile for reducing water consumption.
Undyed sockliner lining textile for reducing water consumption.

SPECIFICATIONS

WEIGHT	295g [M] / 250g [W]
SIZES	6-12,13,14 [M] / 4-9 [W]
STACK MM	31 / 39

USP

Dope-dyed yarn is an eco-friendly dyeing technique. The three types of MIZUNO ENERGY materials provide Mizuno's highest level of energy return and cushioning. You'll feel a soft, comfortable running experience like you've never experienced before. For runners who want to contribute to the preservation of the global environment so that future generations of runners can enjoy running as much as they do.

TARGET CONSUMER

Mainly targeted at runners of the younger generation who are interested in environmental conservation. For runners who want to enjoy running rather than focusing on time.

WAVE SKY 7

REACH THE SKY

This shoe offers a feeling of floating while running. Its features include the MIZUNO ENERGY CORE for cushioning and energy return, MIZUNO WAVE technology for great stability, and the woven material provides a soft & smooth fit. This is the ultimate comfortable shoe for runners of all body types to sail through their runs.

BENEFITS

- MIZUNO ENERGY CORE / MIZUNO ENERGY: You can feel the soft cushioning and high energy return.
- MIZUNO WAVE: Enhances stability without sacrificing the floating feel while running
- Smooth Stretch Woven - The material offers a soft & smooth fit by slowly stretching horizontally without stretching vertically. By reducing the thickness of the fabric and adopting a new design that weaves air vents into the vamp, breathability is improved for an even more comfortable fit.

USP

MIZUNO ENERGY is used for both the top and bottom midsole. The shoe has enhanced cushioning, energy return and a softer, more propulsive, springy feel. The unique shape of the MIZUNO WAVE helps stop the foot arch from collapsing and offers high stability.

TARGET CONSUMER

For runners of average build with overpronation. For everyone from beginner runners to runners training for marathons who need shoes for jogs.

WAVE EQUATE 8

EVERYDAY STABILITY SHOE

Your runs will be smoother than ever with this shoe equipped with MIZUNO ENERGY. The MIZUNO ENERGY Foam in the heel wedge offers great cushioning and energy return. The DOUBLE FAN SHAPED WAVE is designed for overpronation and enables smooth body movement.

BENEFITS

- MIZUNO ENERGY Foam in the heel wedge provides amazing cushioning and energy return
- DOUBLE FAN SHAPED WAVE. The wave shape is specially designed for overpronation. Combining the signature cushioning and stability of Mizuno Wave, the lateral side of the wave plate has a one-wave structure for cushioning while the medial side utilizes a double fan-shaped wave that enables smooth body movement and prevents the foot arch from collapsing.

WAVE REBELLION PRO 2

A NEW GENERATION OF SPEED FOR ELITE RUNNERS.

Run sub-2.5 hour marathons and achieve a new personal best with this shoe loaded with speed-boosting features. It includes SMOOTH SPEED ASSIST to help you achieve the ideal gait, plus a G3 sole for great grip at a low weight. The MIZUNO ENERGY LITE at the bottom midsole supports fast running, while the MIZUNO ENERGY LITE+ at the top midsole enhances softness at a low weight.

BENEFITS

- SMOOTH SPEED ASSIST Supports runners to use what Mizuno considers to be the ideal gait from the start to finish of races.
- MIZUNO ENERGY LITE This soft material offering high energy return is used in the bottom midsole to support speed running.
- MIZUNO ENERGY LITE+ Compared to MIZUNO ENERGY LITE, this material that pursues even better softness and a lighter weight is used in the top midsole to support speed running.

WAVE MUJIN 10

FOR CHALLENGERS IN HARSH TERRAIN

This supportive shoe is perfect for runners who love to take on challenges. You can tackle long-distance runs and technical trails with confidence due to the Vibram Megagrip at the outsole for greatly enhanced grip, even on wet and uneven terrain. You will sail through harsh trail conditions with the support panels from the midfoot to the heel sides. The MIZUNO ENERGY FOAM and MIZUNO WAVE also provide amazing cushioning and energy return to enable smooth runs.

BENEFITS

- MIZUNO ENERGY FOAM - MIZUNO ENERGY offering amazing cushioning and energy return is inserted in the top midsole.
- MIZUNO WAVE (FOAM) - MIZUNO WAVE, featuring a wave structure with EVA at two levels of hardness, enhances stability without sacrificing cushioning.
- Support panels - Support panels from the midfoot to the heel side hold the foot in place even in the harshest trail conditions.
- Vibram Megagrip - Vibram's leading high-performance compound. It provides outstanding grip, especially on wet and uneven terrain.

REFINED FOR SPEED.

Boost your techniques with a shoe that offers a barefoot feeling engineered with numerous improvements. This real K-Leather football boot achieves a barefoot feeling combined with tough durability that will hold strong as you achieve your best speeds ever.

BENEFITS

- K-Leather
- New laces eyelet structure (redesigned eyelet arrangement minimizes creasing when flexing and conforms better to the foot)
- Flat outsole (TPU resin)
- Suitable for all surfaces (soil, artificial grass, and natural grass)
- ZEROGLIDE LITE Sockliner

WAVE STEALTH NEO

NEO POWER & COMFORT.

Co-developed in Japan with the 2018 World Handball MVP Mikkel Hansen, the Wave Stealth Neo is engineered for players in need of high stability and great cushioning on the court. Featuring the new innovative MIZUNO ENERGY core technology, the shoe will create high energy return to help you jump higher and be more agile.

BENEFITS

- The Mizuno Wave technology provides both dynamic cushioning and stability at the same time.
- The new MIZUNO ENERGY core gives unrivalled energy return for higher jumps.
- The fully flat sole construction combined with high midfoot sidewalls provides great stability.
- A comfortable knitted upper provides premium fit and breathability.
- New heel counter for increased heel fitting and stability while keeping the shoe lightweight.

WAVE GK

A special model for the goalkeepers. A unique position that requires a special set of skills. We have created a shoe that works to allow those specific skills to shine. The outsole has a less-friction rubber on the heel to allow goalkeepers to get to low shots faster. The upper has a fortified toe area for more durability in a high contact area.

BENEFITS

- Fortified toe area for durability in high contact spot
- Light-weight bootie construction for a sock-like fit and hold around the midfoot
- XG rubber forefoot for great grip during quick movements
- X10 rubber in the heel for less friction, allowing goalkeepers to slide down faster on their heel

WAVE EXCEED TOUR 6

STEP IT UP

Advanced players can count on this speed-boosting shoe to outpace the competition. It combines a light weight with features that will enhance your starting motions, ease of movement, and turns. These include the MIZUNO ENERGY NXT and MIZUNO ENERGY INSOLE at the ball of the foot for quick starts and turns, plus the updated WAVE PLATE that converts your power into speed. The shoe has also been updated for comfort, including the tongue design that feels soft on the foot and the Dyna-Eyelet Wrap that snugly envelops the foot.

BENEFITS

- By adopting the new functional material MIZUNO ENERGY NXT at the ball of the foot plus the MIZUNO ENERGY INSOLE, this shoe supports the quick turns and starting movements necessary for a speed model.
- By updating the WAVE PLATE [extension to the forefoot on the outside only plus adaptation of the D-Flex Groove design], this shoe offers an excellent rigid feel that instantly converts power into speed, and smoother twisting kick-off motions.
- The newly functional Dyna-Eyelet Wrap, an eyelet structure with large cut-outs, provides a fit that feels like it wraps the entire foot, and is designed to make the shoe snugly fit the foot's motions both when at rest and when on the move.
- Updated 3D-SOLID design. While maintaining the softness of the upper, the durability has been improved through greater coverage of the inner instep area that receives wear and tear.

SPECIFICATIONS

WEIGHT	330g(U) / 260g(W)
SIZES	6 - 11, 12(U) / 4-9(W)
MATERIALS	

USP

Compared to competing models, this shoe offers superiority in both its light weight and flexibility, which are important factors for quick first steps. The sole design has increased flexible rigidity unlike conventional models, with more specs unique to speed models.

TARGET CONSUMER

For serious level (advanced) all-around players
For players who place importance on ease of movement, turns, and speed in their games

OUTSOLE

TECHNOLOGIES

WAVE EXCEED LIGHT 2 PADEL

EXCEED ALL OTHERS

Padel players seeking lightweight comfort should choose this shoe, specifically designed for fast players. It offers an upper structure with a mesh base for great flexibility, a highly cushioned insole and a wide last for a relaxed fit.

BENEFITS

- Foam Wave loaded with MIZUNO ENERGY, offering great cushioning and energy return.
- The upper construction with a mesh base offers softness from the initial fit and a lightweight look.
- Highly cushioned insole.
- Made with a comfortable last and a relaxed wide fit.

WEIGHT	290g (U) / 260g(W)
SIZES	(U) / 4-9(W)
MATERIALS	

USP

A shoe that offers the same mass of competing models and yet an overwhelming cushioning. This provides an integrated, comfortable feel from the moment you put the shoe on and on through the entire game.

TARGET CONSUMER

For players seeking light weight, comfort and softness. For active players who hit the courts frequently.

TECHNOLOGIES

BREAK SHOT 4 PADEL

BREAK INTO TENNIS

Get your big break in tennis with this shoe optimized for entry-level players. It is full of features perfect for beginners, including the flat sole for extra stability, the light weight, and the amazing flexibility. The shoe also has a cool look with the fresh new RB logo and optical illusion creating depth.

BENEFITS

- Beginner-friendly sole design with high flexibility and bendability even if you're still developing your muscles.
- Flat sole with high stability that makes it easy to grasp the court with your whole foot.
- The RB logo from the previous model is now only on the edge to give a lighter and fresher look. The upper is printed in two Colours and designed with an optical illusion to create depth.

TECHNICAL GLOSSARY

TECHNICAL GLOSSARY

WAVE TECHNOLOGY

	<p>Parallel Wave Wave technology which uniformly disperses shock throughout the sole, providing excellent cushioning and enhanced stability.</p>		<p>Fan-shaped Wave Wave technology which features various Wave heights, delivering excellent cushioning and stability.</p>
	<p>Infinity Wave Wave technology with a more visible and effective construction. Two parallel plates that sit together with soft cushioning pillars in-between to provide unrivalled cushioning and improved durability by absorbing and dispersing the impact at foot strike.</p>		<p>Double Fan-shaped Wave Wave technology that gives the highest levels of support combined with excellent cushioning.</p>

ALL SPORTS

	<p>Inspired by nature, Wave is a unique midsole technology that provides both cushioning and stability. Wave's unique shape absorbs and disperses the impact at foot strike, which results in a smoother, more cushioned feel on every step.</p>		<p>ap+, a lightweight midsole compound offering rebound and cushion durability, providing a high level of comfort.</p>
	<p>The DynamotionFit system uses highly advanced motion capture and biomechanics technology. Mizuno has developed a design blueprint to engineer shoes that work with your foot throughout the gait cycle.</p>	<p>AIRmesh</p>	<p>Breathable and cool, AIRmesh allows each running shoe from Mizuno to maintain a high standard of breathability and comfort of the upper.</p>
	<p>Cool and Dry. Mizuno Intercool solves the problem of heat and humidity build-up in a running shoe. It does this by incorporating a full-length ventilation system in the sole of the shoe that removes heat and humidity from the foot through a system of ventilation channels.</p>	<p>Removable INSOCK</p>	<p>Removable insock for comfort and cushioning.</p>
	<p>An advanced lightweight cushioning material that absorbs shocks and keeps the transition smooth and fast due to its quick rebound properties.</p>	<p>Premium INSOCK</p>	<p>A high-grade removable insock for comfort and cushioning.</p>
<p>MIZUNO COB</p>	<p>MIZUNO COB (center of balance) is a midsole structure with multiple pods that activate body awareness to increase balance.</p>		<p>Provides a well cushioned landing with amazing energy return. This midsole material surpasses all expectations of comfort set by previous materials.</p>
	<p>Redefine what Energy return should feel like with this super soft and bouncy midsole material created by Mizuno for our top line products.</p>		

TECHNICAL GLOSSARY

RUNNING TECHNOLOGIES

	<p>The new MIZUNO upper technology holds the foot stable during the run for a secure fit and an unrivalled comfort. A soft fabric mesh stretches and wraps around the foot to create the most comfortable ride.</p>		<p>Pebax® Powered Wave Plate for lightweight energy return</p>
	<p>Durability and Traction. X-10 is an extremely durable Mizuno carbon rubber that allows for longer wear in high impact areas and gives more traction at the heel strike.</p>		<p>The Wave Plate is constructed with a bio-sourced Pebax Rnew® plate. This provides extremely lightweight support and energy return, empowering athletes with every step.</p>
	<p>XtaRide, Mizuno's technical trail concept featuring X lugs and Xta groove, leads to trail shoes that adapt to their surroundings and work in perfect harmony with the body.</p>		<p>An evolutionary lightweight midsole that delivers stress-free cushioned rides with high rebounds. It gives an energised, euphoric and super-comfortable run.</p>
	<p>G3, an advanced performance outsole component that enhances traction where needed most and reduces weight.</p>	<p>ESS Rock Plate</p>	<p>An extra solid sheet rock-plate in the forefoot which provides superb protection against stones and rock.</p>
	<p>A unique midsole compound providing high comfort and performance, while being extremely lightweight.</p>		<p>Waterproof, breathable fabric membrane upper technology.</p>
	<p>An original rubber compound developed by Michelin that provides more grip and comfort.</p>	<p>Blown Rubber</p>	<p>The pressure absorbing blown rubber outsole optimizes pressure distribution throughout the forefoot.</p>
	<p>An engineered approach to minimise the rapid acceleration and deceleration of the foot during transition, creating the smoothest ride possible.</p>	<p>XPOP</p>	<p>A completely new type of midsole compound that delivers cushioning, rebound and durability at a high level. The exquisite harmony of the super soft and advanced cushioning with high energy return makes you feel as if you are floating on water.</p>
<p>WAVEKNIT</p>	<p>A knit construction inspired by our Mizuno Wave technology. It's dynamic stretch and hold abilities provides a sock-like fit that feels natural every step.</p>	<p>XtaGrip</p>	<p>A outsole construction that provides superior grip on various surfaces thanks to it's adaptive abilities. Allows for high traction on soft surfaces and high friction on firm surfaces.</p>
	<p>A lightweight midsole compound providing high level cushioning and rebound for energy efficient runs.</p>		

TECHNICAL GLOSSARY

FOOTBALL & RUGBY TECHNOLOGIES

	<p>A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.</p>		<p>Grippy insock material that stops the foot from sliding inside the shoe.</p>
	<p>Upper delivers a high level of softness and durability with a structured fit.</p>		<p>R-Fiber mesh controls the upper stretch and securely holds the foot during acceleration and turns.</p>
	<p>A unique midsole compound providing superb comfort and performance, while being extremely lightweight.</p>		<p>Highest kangaroo leather quality for premium comfort fit and natural ball touch.</p>
	<p>It is a revolutionary concept, with an integrated memory foam construction which controls three key performance characteristics: Fit, Stability and Touch.</p>		

RACKET SPORTS TECHNOLOGIES

	<p>A unique upper providing the highest level of softness and durability, while maintaining breathability.</p>		<p>A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.</p>
	<p>An exceedingly lightweight midsole material with excellent comfort and resilience properties.</p>		<p>Durability and Traction. X10 provides extremely durable Mizuno carbon rubber that allows for longer wear in high impact areas and provides more traction at the heel strike.</p>
	<p>Dynamotion Groove - an innovatively constructed outsole using specifically designed flex grooves to improve stability and on court agility.</p>		<p>The BOA Fit System contains three integral parts: a micro-adjustable dial, super-strong lightweight laces, and low friction lace guides. It is engineered to optimize fit and provide precision, adaptability, and control.</p>

TECHNICAL GLOSSARY

INDOOR TECHNOLOGIES

	A specifically engineered diagonal groove in the midfoot area allows the player to turn at maximum speed and power by efficiently transferring natural body movement and shift in direction.		An exceedingly lightweight midsole material with excellent comfort and resilience properties.
	A performance outsole component that enhances traction where needed most.		Specifically designed flex grooves in the outsole to improve stability and on court agility.
	Dura Shield protects your toes and increases the product durability.		Super soft and durable synthetic collar lining insert which adds comfort and durability when using ankle braces.
	A shock-absorbing cushioning compound.		

TECHNICAL GLOSSARY

APPAREL TECHNOLOGIES

	<p>Mizuno DryLite technology draws excess moisture away from the body, creating a comfortable and dry microclimate for best performance.</p>		<p>Mizuno FreshPlus technology adds an anti-bacterial and deodorising function to your garment, creating a fresher and odour reducing product.</p>
	<p>Mizuno Bodymapping technology provides enhanced air circulation inside the garment, keeping the body cool and dry.</p>		<p>Mizuno DynamotionFit technology is based on anatomical research to create patterns that give improved garment fit and full freedom of movement.</p>
	<p>Mizuno's BIOGEAR is based on in-depth scientific research into the human exercise physiology and biomechanics. It helps to maintain body balance, improve performance and reduce the fatigue of muscles and joints during sport by controlling stretch, pressure and shape.</p>		<p>CoolTouch technology provides a soft feeling and leads to extremely quick drying.</p>
	<p>Mizuno ImpermaLite technology provides a performance blend of water and wind protection combined with superior breathability.</p>		<p>BlindStitch construction provides flat seams for anti-abrasion and enhanced comfort.</p>
	<p>NightLite, with its reflective material, provides superior retro reflection for low light running.</p>		<p>Breath Thermo is an extremely innovative thermal fabric yarn. It captures escaping body heat and, through a patented reaction in the yarn, generates heat-returning warmth to the body.</p>
	<p>Mizuno Warmalite technology recycles body heat, creating an insulating warm layer between body and garment.</p>		<p>SolarCut technology reflects sunlight ultraviolet waves by reducing the light transmission and thus keeping the body cool.</p>
	<p>Saving water with pure performance. Waterless dyeing process, without added chemicals, that saves up to 25 liters of fresh water per tee shirt dyed.</p>		<p>Keeps high breathability in case of sweaty. Dry material with high heat release. Keeps high breathability in case of sweaty. Dry material with high heat release.</p>
